User stories: Gruppe 8

1. Mario

Pizza maker's screen: As a pizza maker I want to be able to see the list of orders so that I can see what pizzas to make and when they should be done.
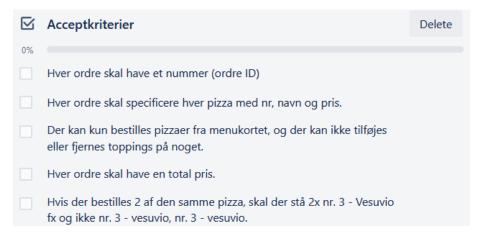

☑ **Acceptkriterier**   Delete

0% ──

☐ Der skal være en klar liste der er synlig.

☐ Der skal stå navn og nummer på alle de pizzaer der skal laves for hver ordre.

☐ Der skal stå hvornår de skal være færdige

☐ Hvis der bestilles 2 af den samme pizza, skal der stå 2x nr. 3 - Vesuvio fx og ikke nr. 3 - vesuvio, nr. 3 - vesuvio.

☐ Den ældste bestilling skal altid prioriteres.

2. Mario

Pizza maker priority: As a pizza maker I would like some sort of logic to the order list that shows me what pizza should be made first, so that I can make the pizzas in due time.

3. Alfonso

Cashier takes orders: As a cashier I want to be able to add orders to a list of orders so that I can keep track all existing orders.

☑ **Acceptkriterier**   Delete

0% ──

☐ Hver ordre skal have et nummer (ordre ID)

☐ Hver ordre skal specificere hver pizza med nr, navn og pris.

☐ Der kan kun bestilles pizzaer fra menukortet, og der kan ikke tilføjes eller fjernes toppings på noget.

☐ Hver ordre skal have en total pris.

☐ Hvis der bestilles 2 af den samme pizza, skal der stå 2x nr. 3 - Vesuvio fx og ikke nr. 3 - vesuvio, nr. 3 - vesuvio.

4. Alfonso

Cashier removes order: As a cashier I would like to be able to remove orders from the list, when Mario says that the order is done and hands me the pizza, so that the list is manageable for us.

☑ **Acceptkriterier**   Delete

0% �_____

☐ Når en ordre fjernes vises den ikke på ordre listen mere.

☐ Individuelle ordre kan fjernes.

5. Alfonso

Cashier menu card: As a cashier (Alfonso) I would like to be able to see the menu on my screen, so that I can see the Menu when customers refer to it and easily access the information.

☑ **Acceptkriterier**   Delete

0% �_____

☐ I can bring up the menu with a command when i need it.

☐ I can use a command to go back to the order list   🕐 👤 ⋯
